

CAPABILITY STATEMENT

Financial Management | Accounting Operations
Administrative Support | PMO | Enterprise Solutions

CORE COMPETENCIES

Iuvo Systems delivers financial management and program support solutions that enable federal agencies to improve accountability, efficiency, and mission performance. Backed by over 17 years of experience in accounting operations, enterprise system implementation, and project management, we integrate financial insight with technology and process expertise to drive compliance and informed decision-making.

- Accounting Operations and Financial Reporting
- Forensic Accounting
- Financial Management: Planning, Programming, Budget, and Execution (PPBE)
- Enterprise System Implementation, Modernization & Integration
- Administrative & Operational Support Services
- Procurement and Acquisition Services
- Business Process Reengineering
- Program Management Office (PMO) Support

DIFFERENTIATORS

- **Proven Federal Leadership:** Our management team brings decades of combined experience supporting federal agencies in financial management, program execution, and systems support across agencies such as the DOJ, DoD Navy (SPAWAR, NSWC Carderock), and Pension Benefit Guaranty Corporation.
- **GovCon & Federal Insight:** Deep understanding of government operational, financial, and compliance frameworks.
- **Integrated PMO & IT Expertise:** Proven ability to combine structured project management with enterprise systems.
- **Data-Driven Delivery:** Advanced analytics and dashboarding solutions that improve decision-making, transparency, and accountability for agency leadership.
- **Scalable Support:** Agile workforce model for surge staffing, OCONUS operations, and remote financial management.
- **CMMC:** CMMC Level 1 certified self-audited.
